

Anhydrous Riser Fill Stations

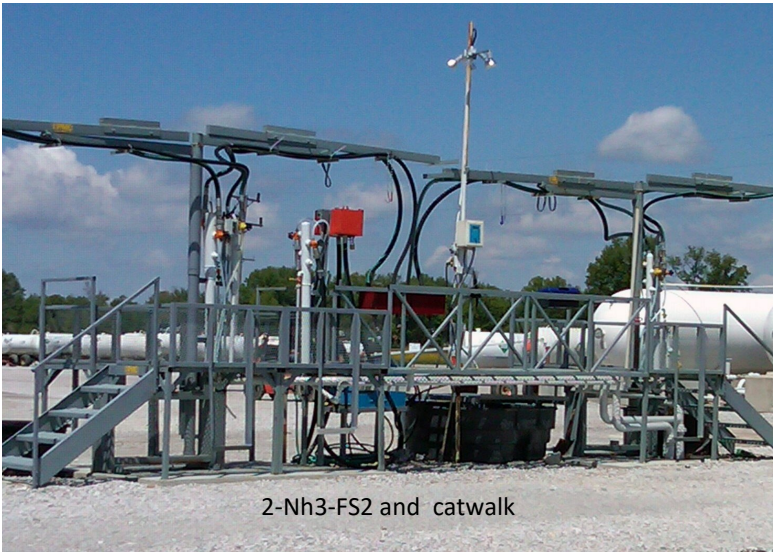

3 Models Available

- Single Boom Fill Station—NH3-FS1
- Double Boom Fill Station—NH3-FS2
- Double Twin Fill Station—NH3-FS4

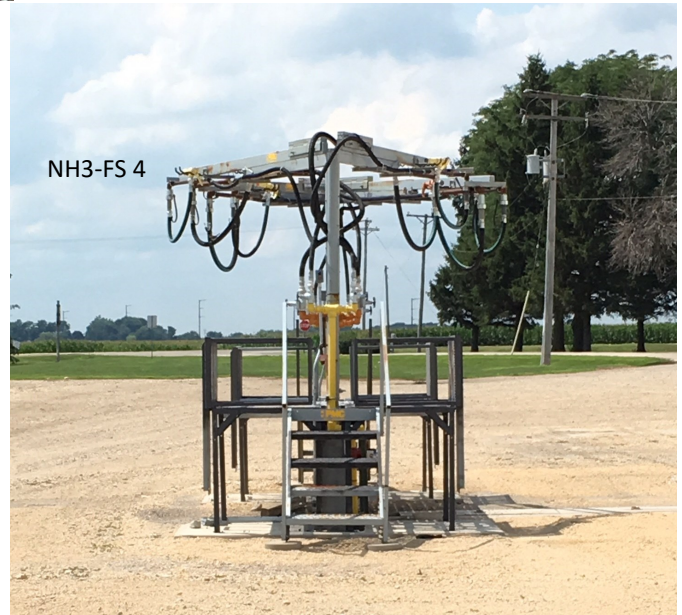

- ◆ The sing boom moves freely over the tank for quick filling.
- ◆ Swing Booms have a radius of 180 degrees.
- ◆ Fold out porch is counter-weighted for easy movement.
- ◆ Fold out porch allows for easy access to the top of either a 1000 gal. or 1450 gal. tank.
- ◆ Customizing and galvanizing available
- ◆ Saves on coupling and hose repairs.
- ◆ No long hoses to drag or pull
- ◆ Steps and floors are made to prevent slipping when wet or icy
- ◆ Hand rails and guard rails provide added safety.
- ◆ Reduces the amount of fatigue during the busy season and enhances safety.

CUSTOMISING AVAILABLE
