MODEL 566

The PMC Fifth Wheel Wagon is designed with the operator in mind. This unit is ideal for both pre-plant and side dress operations. One of the most important features is the *Unique Oscillation System*, giving it the ability to safely transport a fully loaded fertilizer tank across rough, uneven or hilly terrain without transmitting torsional stress to the tank.

FEATURES:

- ◆ Stable 4 corner support with no twist to tank.
- ◆ High ground clearance but low center of gravity – 20 inches of clearance, yet gives you reduced overall height because of oscillation feature.
- ◆ Adjustable tread with:  Model 566 adjusts from 60” to 78”.
- ◆ Adjustable tongue, grease zerks in hubs, and 1-3/4” king pin for steering. All standard features.
- ◆ 1000 gal. and 1450 gal. Capacity.

**ANHYDROUS RISER FILL STATIONS
NH3-FS1 or NH3-FS2
& NEW NH3-FS4 DOUBLE TWIN**

- MODEL NH3-FS1 SINGLE BOOM**
- MODEL NH3-FS2 DOUBLE BOOM**
- MODEL NH3-FS4 DOUBLE TWIN**

FEATURES:

The Swing boom moves freely over the tank for quick filling.

- ◆ Swing booms have a radius of approximately 180 degrees
- ◆ Fold out porch allows for easy access to the top of either a 1000 gal. or 1450 gal. Tank.

Mixed & Matched to fit your needs

- ◆ Saves on coupling and hose repairs.
- ◆ No long hoses to drag or pull.
- ◆ Steps and floors are made to prevent slipping when wet or icy.
- ◆ Hand rails and guard rails provide for added safety.
- ◆ Reduces the amount of fatigue during the busy season and enhances safety.
- ◆ Mix and Match pieces to fit your needs and assist with state compliance requirements.
